

2 July 2014.

Dear Community Groups/Service Providers.

There have been many rumours circulating pertaining to Age Concern Marlborough, some true and others not.

Please rest assured that Age Concern is still up and running, with the office being attended Monday to Friday, 10am -1pm, with our winter hours. We are still distributing mobility vouchers, helping with ALL client queries and fulfilling our role within the community, including continuing with the successful Lavender Group, and the Senior Dance.

Two staff members have left, one because she had another job to go to. We do not currently have the contract for Elder Abuse as it was not renewed. Our staff at that time did not hold the appropriate qualification. We are working with other agencies to monitor this and safe guard any Clients that may require any urgent care.

We are currently advertising for a new Community Support Worker.

We still have funds, and an operating bank account.

The comments made in the local media recently, are not necessary those of the new Board of Age Concern Marlborough. New Zealand Age Concern has been kept up with all information, and are also in full support of us.

We wish to thank all individuals and community groups who have and are continuing to support Age Concern Marlborough.
